INNOVATION AND INDUSTRIAL MANAGEMENT
UNIV.-PROF. DR. CHRISTIAN RAMSAUER

VACANT POSITION

Project Assistant (m/f/d): Industrial Engineering

Your Responsibilities:

- Involvement in the ongoing research activities of the institute with focus on industrial engineering and human factors
- Participation in the research project "ExoFitStyria" (study with exoskeletons in industrial companies in Styria)
- Collaboration in the establishment of the first Austrian laboratory on the subject of exoskeletons
- Opportunity for independent research (dissertation)
- Optional support of teaching and examination activities

Your Profile:

- Completed master's or diploma studies in mechanical engineering (-economics), mechatronics, production science and management, software development (-economics), or another technical discipline, ideally with additional qualification in economics.
- Interest in scientific work on techno-economic topics, especially in the field of industrial engineering and/or human factors (e.g. exoskeletons)
- Experience in the field of biomechanics, ergonomics, industrial engineering, or similar an advantage
- Committed, flexible, self-reliant personality with a structured approach to work and social and communication skills an advantage
- Good English and German language skills

What we offer:

- Flexible agreement on working time (30 or 40 hours per week)
- Access to leading industrial companies
- Guaranteed funding for at least 2 years. Depending on the progress of the research projects there is the possibility of an extension as well as a dissertation
- Secure and stable working environment
- Budget for the purchase of exoskeletons and laboratory equipment
- Most family-friendly company in Styria 2018
- The minimum salary according to the collective agreement for this position is € 2,929.00 per month (14x per year), for full employment.
