

Transforming innovation
into
climate action

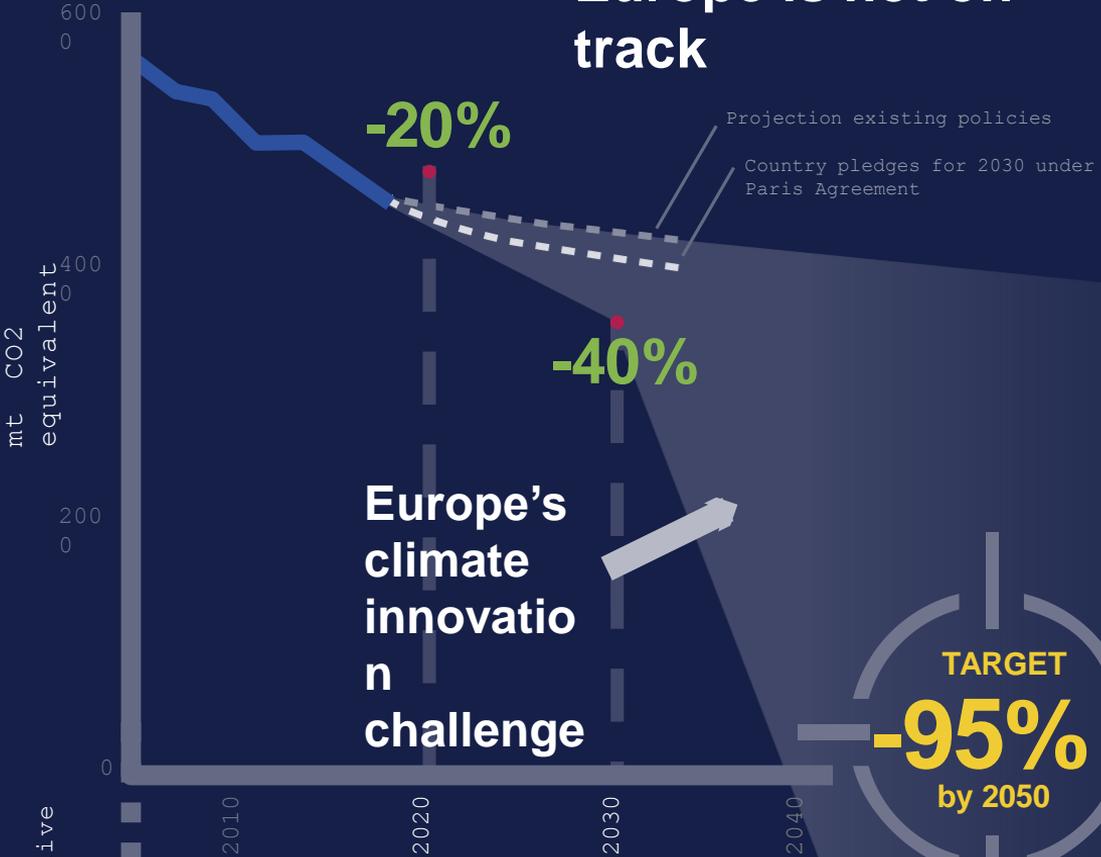

Climate-KIC is supported by the
EIT, a body of the European Union

EIT Climate-KIC addresses the **interdependent challenges** of climate change and sustainable economic development through **strategic innovation.**

Europe is not on track

6x

3 Faster than the global average

6-8%

- 2 Reduction in carbon intensity every year to 2050 and beyond
- 1 European target consistent with 1.5°C Paris Agreement goal

Innovation areas

We develop innovation across sectors with the most potential for environmental gain and continued prosperity

Urban
Transitions

Sustainable Production
Systems

Sustainable
Land Use

Decision Metrics
and Finance

2030 Impact Goals and Transformation Pathways

EIT Climate-KIC Partners by country and type

Total pan-European distribution of our partners

End-to-end innovation

Innovation portfolio highlights

Climetric

First **climate impact rating** for equity funds covers →

Launch in 2017 generated more than:

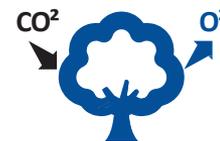

€2 trillion AUM*

50 media articles

CityTre

Helped revolutionise air pollution and **carbon sequestration** in 30 locations

€1 million turnover

Novodo

Uses **enzymes** in detergents

€6 million

1.5 tonnes carbon savings

AdmitBioSuccinovate

Helped improve **environmental footprint** of its chemicals by:

€28 million funding

WINnER

Helping farmers in Tanzania to strengthen **climate resilience**

30,000 farmers
