

STORY

Demonstrating the added value of storage in distribution systems

Johanna Pucker, Heribert Vallant, Stefan Marksteiner, Andreas Tuerk
14. Symposium Energieinnovation, 12.02.2016, Graz, AUSTRIA

- 1) Projektüberblick
- 2) Demonstrationsvorhaben
- 3) ICT as a supporting service

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 646426

Projektüberblick

Projektziele

“Show the added value of storage in the distribution grid”

- **Demonstration und Bewertung** von innovativen Energiespeichersystemen
 - Leistbare & sichere Lösungen für einen höheren Anteil an Eigenversorgung
- Untersuchung der Auswirkungen eines **großflächigen Einsatzes von Energiespeichern** auf das europäische Stromnetz
- Entwicklung von **Business-Modellen** und Empfehlungen zum **regulatorischen Rahmen** für eine verstärkte Umsetzung von dezentralen Energiespeichern

- 18 Institutionen aus 8 Ländern
- Koordinator: VTT
- Technische Koordination: Th!nk E
- Horizon 2020 (LCE-08-2014)
- Start: 1. Mai 2015 (Dauer: 60 Monate)
- Budget: 15,8 Mio. Euro

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 646426

Projektkonsortium

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 646426

Demonstrationsvorhaben

6 Demonstrationsvorhaben

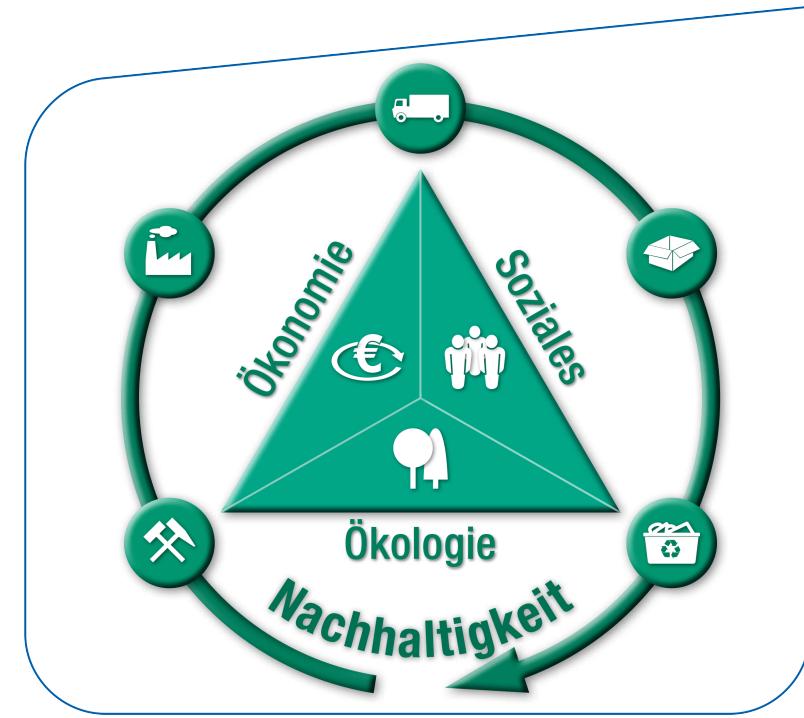

Überblick

	Demo 1	Demo 2	Demo 3	Demo 4	Demo 5	Demo 6
	Residential building scale	Residential neighbourhood scale	Storage in a factory	Storage in residential district	Flexibility & robustness of large scale storage unit	Roll out of private multi-energy grid
Speichertyp	thermischer Speicher Batterie CAES	✓ ✓	✓ ✓	✓ ✓	✓ ✓	✓ ✓
Anschluss an Stromnetz	✓	✓		✓	✓	
Technologien zur Strom- und Wärmeerzeugung	CHP Vakuumröhrenkollektor Wärmepumpe Photovoltaik Windkraft Gezeitenkraftwerk Biogasanlage Brennstoffzelle	✓ ✓ ✓ ✓ ✓	✓ ✓ ✓ ✓	✓ ✓ ✓ ✓ ✓	✓ ✓ ✓ ✓	✓ ✓ ✓
Nutzer	Wohngebiet	Wohngebiet	Industrie	Wohngebiet	Wohngebiet & Industrie	Industrie
Ort	Belgien	Belgien	Spanien	Nordirland (UK)	Deutschland & Slowenien	Belgien

Monitoring, Bewertung & Extrapolation

- Datenerhebung
- Bewertung der Demonstrationsvorhaben
 - technisch, ökonomisch, ökologisch
- Auswirkungen einer großflächigen Einführung von Speichern
 - technisch, ökologisch, sozial

**A vision
of our future
energy
system**

The diagram illustrates a vision of the future energy system. It features a central text box with the words 'A vision of our future energy system'. Surrounding this text are four circular icons connected by lines: a wind turbine icon at the top right, a solar panel icon on the left, a battery or storage unit icon at the bottom left, and a hydroelectric dam icon at the bottom right. The background of the slide has a light gray diagonal shadow on the right side.

Creating the future of energy storage
