

Graz University of Technology
Architectural Research Lecture series

Stefan Fink / Eva Babonich
Data Base Research and Reference
Management for PhD-Students

Friday, 25.10.2019 10–12h
Technikerstr. 4 Raum BZ03058
Graz University of Technology

This research training presents essential databases in the field of architecture and construction and their functionality using practical examples. This is followed by an introduction to professional reference management and reference management software. Bring your laptop/tablet as well as your specific research questions to get the most out of this training.
