Diego Tejada, PhD – TNO

“Latest innovations in large-scale energy model optimization at TNO”

Date: 10.06.2025 at 3 pm

Place: 4340 Institute of Electricity Economics and Energy Innovation,
2nd floor, HS02024

INFORMATION

We are excited to announce a guest lecture by Diego Tejada, an expert in energy systems and optimization, on the topic of "Latest Innovations in Large-Scale Energy Model Optimization at TNO."

Diego Tejada, affiliated with TNO, will share his insights into the latest advancements in energy model optimization and how these innovations are shaping the future of large-scale energy systems. His work focuses on improving the efficiency and sustainability of energy models, which is key to tackling global energy challenges.
