	yes		no
<p><i>I agree to Graz University of Technology and the partnering organization Yokohama National University (YNU), free of charge and unlimited in terms of time, space and content, the permission to use the work of my abstract and presentation used in the course of the "15th International Summer School on PEFCs and H2". This includes the right to publish, distribute, and display the text of all accepted abstracts/presentation on central university media channels (as e.g. the institutes- and event homepage) and in an Abstract Book.</i></p> <p><i>I expressly confirm that I possess all rights to the content of my abstract and presentation including all pictures used therein, graphics etc. The lecturer is obligated to indemnify and hold harmless TU Graz and the partnering organization YNU for any damage or claims by third parties, in particular due to a violation of copyright provisions.</i></p> <p><i>I'm aware that photos will be published on central university media channels (as e.g. the institutes- and event homepage) and in external media (e.g. through press releases and/or -articles) and will be forwarded to the partnering organization YNU. These photos can be accessed by anyone on the Internet. TU Graz and the partnering organization YNU is not liable for third parties using the content of the website for other purposes without the original copyright holder's knowledge. In particular, TU Graz and the partnering organization YNU is not liable for downloads and/or copies of the photos.</i></p> <p>Please see our Privacy Policy for more information about how TU Graz uses your personal information.</p>			

*Please send your abstract (max. 2 pages) for the poster presentation until 15 July 2023. Please use "Abstract_template_PEFC_Summerschool" for your abstract and send the document as word file back.

The abstract will be published in the abstract book of the Summer School 2023.
