

Job Opening

Student Assistant Positions Available at IEE for the Academic Year 2025/26

General Information

The Institute of Electricity Economics and Energy Innovation is seeking student assistants for the upcoming academic year 2025/26.

Scope of Activities

The tasks of student assistants at IEE include:

- Participation in scientific work
- Assistance in teaching activities
- Support in student supervision
- Involvement in administrative tasks
- Participation in the organization of the 19th Symposium on Energy Innovation (02.-13.02.2026, weeks 6-7/2026)

Requirements

- Studies in Electrical Engineering, Electrical Engineering-Economics, or a related field with a focus on Energy & Environment
- Interest in the fields of Electricity Economics and Energy Innovation
- Basic programming skills are advantageous
- Intensive on-site involvement in the organization of EnInnov2026, particularly in weeks 6-7/2026

Organizational Details

The number of working hours will be determined in a personal interview, and employment is planned for both the winter and summer semesters. The IEE aims to increase the proportion of women at the institute and therefore particularly encourages female students to apply. Please send a meaningful application by email to the contact below if you are interested. The application deadline is 01.06.2025.
