

SCOPE

This conference is a continuation of a successful series of previous conferences that started in 1993 with the first meeting in Florence (Italy). The conference focuses on all aspects of development, production technology (hot and cold rolling, heat treatment, etc.) and corrosion of stainless steels and addresses both delegates with academic and industrial backgrounds. The findings shall contribute to the advancement of existing and potential applications and will help to guide future development. This event will bring together developers, manufacturers and users of stainless steel from industry and academia and will compare the present and future needs to satisfy these demands now or in the future. Short and medium term perspectives of European stainless steel flat and long products will be broadly discussed inside the Stainless Steel Market Outlook session. The session will be organized by SMR (Steel & Metals Market Research), a market research firm specifically focused on the stainless steel sector. Markus Moll, Managing Director of SMR, will give a plenary speech on Outlook for the global stainless steel industry with focus on Europe.

It is expected the presence of speakers representing the most important European stainless steel association and reports coming from the big stainless steel companies.

TECHNICAL SCIENTIFIC TOPICS

- Austenitic stainless steels
- Ferritic stainless steels
- Martensitic stainless steels
- Duplex stainless steels
- Metallurgy
- Simulation and modelling
- Corrosion
- Surface properties
- Welding
- Applications
- Oil & gas applications

Conference language: The conference language for presentations and submitted manuscripts is English.

8th European Stainless Steel Conference Science & Market and Duplex Stainless Steel Conference & Exhibition 28 - 30 April 2015 Graz - Austria

DEADLINES

Abstract submission:	30 July 2014
Notification:	30 September 2014
Full paper submission:	31 January 2015

REGISTRATION FEES

Authors:	€ 660,-
ASMET members:	€ 780,-
Delegates:	€ 880,-
Students:	€ 360,-

SCIENTIFIC CHAIRMAN

Prof. Christof Sommitsch
Graz University of Technology

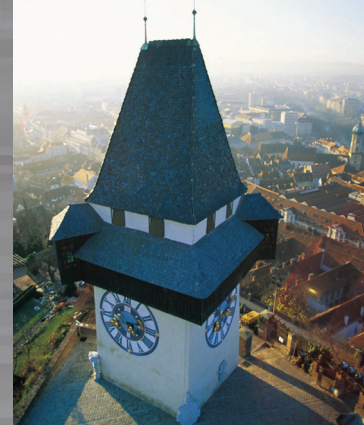

CONFERENCE SECRETARY

Mrs. Melanie Baumgartner
Mrs. Isabella Scheiber

ORGANISATION CHAIRMAN

Dr. Bruno Hribernik
*ASMET – The Austrian Society of
Metallurgy and Materials*
