14th Minisymposium on Chemical and Process Engineering 5th Austrian Particle Forum

4th - 5th April, 2018

Johannes Kepler University Linz
Department of Particulate Flow Modelling
Institute of Process Engineering

Welcome

In 2018 the 14th Minisymposium on Chemical and Process Engineering will take place at JKU in Linz. This well-established event aims to connect chemical engineers and researchers all over Austria. It is a special honor for both organizers to welcome you in Upper Austria.

Additionally to the Minisymposium JKU will also host the 5th Austrian Particle Forum. The organizers are looking forward to meet you in Linz!

SPACE FOR ENGINEERING AND NATURAL SCIENCES.

Submission

Junior and senior researchers are invited to submit their contributions to the Minisymposium and Austrian Particle Forum – either oral or poster presentation.

MINISYMPOSIUM

- For oral presentations please submit an extended abstract (exactly 4 pages). One presentation will be 20 minutes.
- For poster presentations please submit a short abstract (1 page). The poster presentations will be max. 3 minutes each.

AUSTRIAN PARTICLE FORUM

- For oral presentations please submit a short abstract (1 page). One presentation will be 15 minutes.

The submission will be handled online. It is required to use the template provided on the webpage, only doc.files are accepted. Please visit www.chemical-engineering.at

Deadlines

Call for Presentations	31.12.2017
Notification of Acceptance	31.1.2018
Registration	15.3.2018
