

The Institute of Statistics at TU Graz is offering a full-time (40h per week)

**Postdoc research position in Statistics.**

The duration is between 12 and 24 months, but conditional on funding a further extension may be possible. The starting date and the actual length are subject to negotiations.

The position is within the FWF-funded project P 35520 “*Analysing functional data by approximate factor models*” led by Prof. Siegfried Hörmann.

Your profile:

- Completed doctorate in mathematics or statistics.
- Background in multivariate statistical methods and/or asymptotic inference.
- Proven capability of publishing in high quality international journals.
- Good experience with software implementations.

We offer:

- An active research group, flexible working conditions, collaboration with international experts in the field related to the project.
- A monthly gross salary of € 4,752.30 according to the salary scheme of the Austrian Science Fund (FWF).

Applications with a CV and a letter of motivation should be sent to [shoermann@tugraz.at](mailto:shoermann@tugraz.at). Screening of applications will begin immediately, and will continue until the position is filled.
