

## GCCE Seminars on Software, Begin February 2021

Motivation:

- Different programs are used in different institutes
- to understand and have an overview of the software which are used for certain tasks or computations (for projects in the future too)
- to identify a common denominator on how to benefit from already existing software and a coupling
- to have an easier introduction to a software for students not familiar with it

Softwares: PANDAS, OpenFOAM, ABAQUS, MAIPROGS, FEAP, ...

The presentation could be 30min-45min, if possible with examples and a demonstration.

First Presentations:

- Alireza Jafarinia 12th February, on OpenFOAM
- Ishan Gupta, on 12th March, on PANDAS
- Richard Schussnig, on 12th April, on deal.II
- Ceyhun Özdemir, on 17th June, on MAIPROGS
- Malte Rolf-Pissarczyk, on June/July, on FEAP or ABAQUS ?
