

Günter Getzinger studied chemical engineering at Graz University of Technology and philosophy at University of Graz and Alpen-Adria-Universität Klagenfurt. Study and research stays at Darmstadt University of Technology, Frankfurt University, Karlsruhe University, Fraunhofer Institute for Systems and Innovation Research (ISI) in Karlsruhe, and Helsinki Collegium for Advanced Studies.

In 1988 Günter Getzinger was co-founder and from 1988 to 1991 director of the IFZ, the Interdisciplinary Research Centre for Technology, Work and Culture Graz unit of the STS - Institute of Science, Technology and Society Studies at Alpen-Adria Universität Klagenfurt. Till 1997 he was head of the research group on green public procurement and eco-design and till 2009 member of the executive board of the IFZ.

From 1991 to 2017 Günter Getzinger was researcher and lecturer at the STS – Institute of Science, Technology and Society Studies at Alpen-Adria-Universität Klagenfurt (IFF - Faculty of Interdisciplinary Studies).

From 2012 to 2014 Günter Getzinger was director of the STS, from 2014 to 2017 its deputy director. In 1999 he founded the Institute for Advanced Studies on Science, Technology and Society (IAS-STS), Graz and since then he is Managing Director of this institute, which is co-hosted by the STS-Unit/TU Graz and IFZ STS – Science, Technology and Society Unit.

From 2018 to 2025 he was the head of the STS - Science, Technology and Society Unit/ISDS, Graz University of Technology, since 2025 he is vice head.

Lectures on philosophy and ethics of technology, sustainable technology design and innovation, technology assessment, and science, technology and research policy at Graz University of Technology, at University of Graz, and at Alpen-Adria-Universität Klagenfurt. Furthermore, from 1991 to 2000 Günter Getzinger was a Member of the Styrian Parliament and spokesperson for science, cultural and environmental affairs for the Social Democratic Party and from 2003 to 2008 member of the City Council of Graz. He is member of several advisory boards (science policy, energy, education).

Main fields of research

In his research, Günter Getzinger is focusing on the philosophy and ethics of science and technology; on theoretical and practical aspects of eco-design, mainly as part of energy and mobility systems; on technology assessment; on public procurement; on research, technology, energy and mobility policy; and on haptics
