

Rachan Daimary is a doctoral candidate in Centre for Studies in Science, Technology and Innovation Policy (CSSTIP) at Central University of Gujarat, India. His research focuses on public engagements with conservation science in protected areas for effective wildlife conservation and development. He was awarded an M.Phil. for his dissertation entitle with 'Public Engagement with Innovations in Informal Settings: A Study of Grassroots Innovation in India' from Central University of Gujarat. He completed his MA in Mass Communication and Journalism from Tezpur Central University, India with the interest of science communication and development. He did his undergraduate studies at Punjab Technical University, where he graduated in the Bachelor of Computer Application (BCA). Now, he is more interested to understand the human-nature relations from the perspective of STS.
