

CVWW 2019

Stift Vorau, Austria, 06. - 08.02.2019

<https://cvww2019.tugraz.at/>

The Computer Vision Winter Workshop is the annual meeting of several computer vision research groups located in Graz, Ljubljana, Prague, and Vienna. The main goal of this workshop is to communicate fresh scientific ideas within these four groups and to provide conference experience to PhD students. However, the workshop is open to everyone.

The 24th Computer Vision Winter Workshop (CVWW) 2019 is organised by members of the Institute of Computer Graphics and Vision from Graz University of Technology.

Perspective authors are invited to submit their novel work as **full papers** (6 - 8 pages, A4 format). All submissions will undergo a double-blind peer-review process by the programme committee. Accepted papers will be published online with "Verlag der TU Graz" in a fully open-access electronic volume (with ISBN, and DOIs for individual papers).

A special category is the **out-of-proceedings papers**. Such papers will receive a feedback from experts (reviewers) and based on the feedback they can be accepted as invited talks. Out-of-proceedings papers will not appear on the internet or in the proceedings. Consequently, there will be no restrictions on submitting of the work elsewhere.
