

Call on experts to post their needs for clarification/additional rules of the amended EN 15804

In view of the amendment of the standard EN15804, the guidance CEN/TR 16970 would have to be adapted (some issues could remain untouched, others would have to be adapted, new issues could be taken up). LCA experts & EPD practitioners with concerns or questions on the amended EN 15804, should send their topics and - if possible - approaches or solutions to Isabel Brähler, the secretary of WG 3. Isabel Brähler isabel.braehler@din.de
