**Dear Colleague,**

The 22<sup>nd</sup> International IGTE Symposium on Computational Methods in Electromagnetics and Multiphysics IGTE'26 ([igtesymp.tugraz.at](http://igtesymp.tugraz.at)) will be held in Graz, Austria, **on-site and online** from September 20 – 23, 2026. The aim of the IGTE Symposium is to present and discuss recent developments in

- Computational Electromagnetics (Methods and Applications)
- Multiphysical Aspects in Electromagnetics
- Optimization and Inverse Problems in Electromagnetics
- Material Modeling in Electromagnetics

**Special sessions** are planned on

- Magnetic losses in laminated cores, *chaired by Christophe Geuzaine and Manfred Kaltenbacher*
- Machine Learning-Based Methods for Modeling, Optimization and Inverse Problems in Electromagnetics, *chaired by Sami Barmada and Alice Reinbacher-Köstinger*

Additionally, a **PhD workshop** is scheduled right after IGTE'26. More information on this workshop will be available on the website soon.

The working language will be **English**.

Important **deadlines**:

- Digest **May 30, 2026**
- Notification on acceptance **July 10, 2026**
- Full paper: **October 1, 2026**

Please create a user account in ConfTool (via the website [igtesymp.tugraz.at](http://igtesymp.tugraz.at)) to receive all important information concerning IGTE'26 directly.

All information on the **one-page digest** can be found on the website.

Authors of accepted papers are invited to submit a six-page full paper. A selected number of papers will be published in **COMPEL**, the International Journal for Computation and Mathematics in Electrical and Electronic Engineering, Issue 6, Vol. 46, 2027, after a peer reviewing procedure, all other papers will be published in the IGTE'26 Conference Proceedings.

For further details, please refer to the website or feel free to contact the organizers directly ([igtesymp@TUGraz.at](mailto:igtesymp@TUGraz.at)).

We are looking forward to meeting you in Graz in autumn 2026.
