
Update 15.09.2021

Below you will find an overview of all regulations that currently apply in all Austrian federal provinces unless increased COVID-19 cases are reported in individual regions. Then regional measures might be taken.

The following rules apply as of September 15th:

Antigen tests
As of September 15th antigen-tests are only valid 24 hours.

FFP2 masks
As of September 15th, FFP2 masks (instead of regular face masks) are required for everyone on public transport, in cable cars, and essential businesses such as supermarkets, chemists, petrol stations, banks.
FFP2 masks are required in all shops and museums for those who are not vaccinated or have recovered from COVID. For those vaccinated or recovered it is also recommended to wear FFP2 masks.

Proof of vaccination
Since August 15, a change in the proof of vaccination is in force. Since then, one is considered vaccinated only when fully immunized. The proof is issued on the day of the second vaccination. The exception is persons who are vaccinated with Johnson & Johnson, i.e. receive only one sting.

Be prepared to show your status
As mentioned above, be prepared to show your status: proof of vaccination, proof that you are recovered from COVID or a valid PCR test.
