Registration of prepaid SIM cards

Since 01 January 2019 all network providers are obliged to identify all customers using prepaid SIM services ('Pay-As-You-Go' tariff plans). For this reason, all prepaid SIM cards have to be registered before activation. For more information, see [here](#)

EU Roaming

When travelling outside your EU country of residence/home country to another EU country, you don't have to pay any additional charges to use your mobile phone. This is known as "roaming" or "roam like at home". Your calls (to mobile and fixed phones), text messages (SMS) and data services are charged at domestic rates, i.e. the same price as calls, texts and data within your home country.

Internet

Apart from the three major telecom companies A1, Magenta and Drei, also discount providers such as Yesss, BOB, HoT etc. offer internet packages. Consult the websites and/or visit the store to learn about the tariffs, speed, contract, etc.

To compare and contrast mobile phone tariffs, (mobile) internet, etc.
