

Vice Rectorate for Academic Affairs

The structure of the **Vice Rectorate for Academic Affairs** ensures that synergistic potentials can be used to the full through the optimal linking and integration of organizational units. High-quality consulting and support promote strategic developments such as internationalization, digitization or cooperation on the one hand, while enabling active participation in the further development of teaching on the other. In doing so benefit is provided for students, teachers, alumni/alumnae, and even society as a whole in terms of lifelong learning.

WE CARE ABOUT EDUCATION

Vice Rectorate for Academic Affairs

WE CARE ABOUT EDUCATION

Vice Rectorate for Academic Affairs

Graz University of Technology aims to provide high-quality education for students of natural sciences and technology.

It is the responsibility of the Vice Rectorate for Academic Affairs to continuously improve the quality of teaching and learning and to support teaching staff, deans of studies, dean's offices, and institutes.

The Vice Rectorate for Academic Affairs provides comprehensive assistance with the aim of preserving and further developing the university's high quality academic programs. Therefor six organizational units support the Vice Rector and together form the **Vice Rectorate for Academic Affairs**.

Registrar's Office

We care about *organising* education.

studienservice@tugraz.at

We accompany students from their first day on campus through to graduation and administrate all study-related data and processes effectively and efficiently. As the first point of contact in all study-related matters, we facilitate the process of studying. We provide advice on issues concerning one's studies, manage data, and support the further development of processes and services.

International Office - Welcome Center

We care about *international* education.

international@tugraz.at

We invest in diversity to enrich our campus, building an international environment through mobility programmes and projects for students and staff, international and intercultural exposure to the TU Graz community, welcome programmes for incoming students and staff, preparing outgoing students and staff for their time abroad, and international partnerships and cooperation.

Life Long Learning

We care about *continuing* education.

lifelong.learning@tugraz.at

We offer excellent, lifelong learning for graduate students and other professionals at university level. Together with our teaching staff and external partners, we design needs-based education programmes on innovative topics. Professional support and organisation are of utmost importance to us.

Languages, Key Competencies and In-House Training

We *enrich* education.

ssiw@tugraz.at

We enrich education with language and soft skill courses for students and qualification opportunities for teachers. We support the process of internationalization and the development of teaching at TU Graz. We provide a tailored in-house training programme for our staff.

Educational Technology

We care about *e*Education.

elearning@tugraz.at

We create value by utilising educational technologies: developing digital teaching and learning environments, providing digital teaching and learning resources, offering open educational resources to foster access to education.

Higher Education and Programme Development

We care about *developing* education.

lse@tugraz.at

We enrich the continuous development of teaching and learning as well as study programmes through support activities for the Vice Rector for Academic Affairs and the deans of studies. In this point of contact we advance concept and strategy development, offer expertise in study law, organize information and dialogue events, hold lecture activities in in-house trainings, and support the monitoring and support systems.
