Graz University of Technology | Faculty of Architecture has a vacancy for

a University Professor (m/f)
for Architectural History and Heritage Conservation

at the Institute of Urban and Architectural History, expected to be filled from May 2019. The University Professor will be employed on the basis of § 98 UG (Universities Act) for an indefinite period.

Applicants must have realised excellent projects involving designing and planning in a historical context. They are expected to have architectural practice with an emphasis on building in existing structures and excellent knowledge in the field of architectural history and heritage conservation. Applicants must therefore furnish proof of their activities in representing and developing the field of architectural history and heritage conservation at high international standards in both teaching and research. This particular combination of expertise is to be further developed by means of an interdisciplinary interplay of architectural design, engineering and natural science, humanities and social science. An expressed goal of TU Graz is therefore to build cooperations with university and non-university research facilities and specialist authorities.

The chair is thus responsible for teaching a basic knowledge of architectural history and heritage conservation in the compulsory and elective subjects of the bachelor’s and master’s programme in the form of lectures, supervised exercises, and seminars. This task is to be taught above all against the background of and employing architectural design. Future questions pertaining to a complex architectural examination with regard to handling heritage architecture must be dealt with and incorporated in teaching and research. This also includes supervising master's theses and dissertations. Outstanding teaching skills are desired.

A willingness to collaborate on academic self-management and on cross-institute and cross-faculty cooperations and to take part in the international programmes of the faculty is required. The scope of required teaching for the chair is based on the statutory provisions.

A good command of English, written and spoken, is required in order to be able to represent the subject internationally. If the candidate does not already speak German, he/she must be willing to learn the language.

The successful applicant will be required to move to the Graz area. At the faculty of architecture at TU Graz you can expect to find an attractive job with excellent infrastructure and the best opportunities to engage in interdisciplinary cooperations.

Job requirements:

- An Austrian or equivalent foreign degree in architecture appropriate for the intended post.
- Excellent practical and scientific qualifications in building in existing structures in the context of architectural history and heritage conservation.
- Proven executive qualifications.

Graz University of Technology aims to increase the proportion of women, in particular in management and academic staff, and therefore qualified female applicants are explicitly encouraged to apply. Until
a balanced ratio of men and women has been achieved at the university, preference will be given to women if applicants are equally qualified.

Graz University of Technology actively promotes diversity and equal opportunities. Applicants are not to be discriminated against in personnel selection procedures on the grounds of gender, ethnicity, religion or ideology, age, sexual orientation (Anti-discrimination). People with disabilities and who have the relevant qualifications are expressly invited to apply.

Please send applications, in electronic form only, enclosing a curriculum vitae and a copy of proof of citizenship and degree/diploma with a description of your scientific and professional career, lecturing and teaching activities, bibliography, and other pertinent documents, to the Dean of the Faculty of Architecture, Univ.-Prof. Dr.-Ing. Stefan Peters, dekarch@tugraz.at, to arrive at the Dean's office no later than

15 November 2018

(date of email). The application must include the documents listed at www.architektur.tugraz.at (>Aktuelles >offene Stellen) and the official application form. Additional information about the procedure and services of TU Graz for staff can be found at www.tugraz.at/go/professorships.

The Dean: Univ.-Prof. Dr.-Ing. Stefan Peters
