The Faculty of Computer Science and Biomedical Engineering at Graz University of Technology is seeking for applicants for

a professorship of

Entrepreneurship and Management
with a focus on international management

The successful candidate will be a member of the Institute of Interactive Systems and Data Science. The position is limited with a duration of 5 years (according to § 99 (1) of the Austrian University Act) for 30% of a full professorship, and is expected to start in January 2018.

We are seeking candidates with demonstrated scientific and teaching excellence to represent the area of Entrepreneurship and Management in an international context in both research and teaching and who will complement our existing team. The professorship’s focus is along the value chain of European enterprises who aim to position themselves internationally. Furthermore, we are particularly interested in Asia both as supplier and demand location. A central aspect of the professorship will be to consider carefully perspectives of Asian enterprises, which we expect to lead to significant best practice studies. Finally, we expect intensive consideration of intercultural characteristics and differences.

The professor is expected to contribute with intercultural competences and networks especially in relationship to Europe-USA-Asia to research and teaching at TU Graz and in the context of strategic partnerships.

We expect active interdisciplinary, inter-departmental and inter-university collaboration, especially also with the business science institutes at TU Graz, with STEP (Steirische Entrepreneurship Plattform), TIMEGATE (Transferinitiative von Management- und Entrepreneurship-Grundlagen, Awareness, Training and Employability) and NAWI Graz.

We expect active participation in teaching at the Bachelor, Master, and PhD level and a willingness to participate in matters of academic administration. Moreover, relevant experience in obtaining funding and managing national and international research projects is required.

Requirements:

1. A national or international university education with a completed doctoral degree.
2. Habilitation (venia docendi) or an equivalent qualification in a relevant research field.
3. Excellent didactic skills.
4. An outstanding scientific track record in research, documented by internationally recognised publications.
5. The successful management of large and interdisciplinary research projects.
6. The ability to lead and to develop research teams.
Graz University of Technology is committed to increasing the percentage of female employees, especially in executive positions and as research staff. We therefore explicitly encourage qualified women to apply. Given applicants with equal qualifications, priority will be given to women.

Graz University of Technology actively promotes diversity and equal opportunities. Applicants are not to be discriminated against in personnel selection procedures on the grounds of gender, ethnicity, religion or ideology, age, sexual orientation (Anti-discrimination). People with disabilities and who have the relevant qualifications are expressly invited to apply.

Candidates should submit their detailed application (including curriculum vitae, copies of diplomas, list of publications, copies of the 5 most significant publications, a description of the academic and professional career) electronically until

October 18th, 2017
(Date of Email)

to the Dean of Computer Science and Biomedical Engineering, Prof. Frank Kappe, informatik@tugraz.at, using the electronic application form at https://www.tugraz.at/go/professorships-vacancies/.
