Graz University of Technology / Faculty of Mathematics, Physics and Geodesy, is seeking for applicants for the university professorship for

SPACE SCIENCES

(m/f/d)

at the Institute of Theoretical Physics and Computational Physics. The final candidate (f, m, div.) will be applied in a five-year employment contract under private law with the Graz University of Technology in accordance with § 99 (1) UG on a part-time basis (with 20% employment extent) at the beginning of winter semester 2021/22.

We are looking for outstanding scientifically qualified candidates who will strengthen the long-standing intensive cooperation between Graz University of Technology and the Institute of Space Science Graz of the Austrian Academy of Sciences (ÖAW) with his or her research profile in the field of space sciences. Teaching activities on the experience of an Associate Professor (Researcher) for master and doctoral studies are expected, especially on current research topics in the field of the ÖAW-Institute of Space Science. The professorship will be integrated into the future Graz Center of Physics and thus part of NAWI Graz, the - for more than 10 years -successful university cooperation of the University of Graz and Graz University of Technology.

The formal employment requirement is a university degree appropriate to the position, including a doctorate / PhD.

Essential selection criteria are:
- Outstanding scientific qualification (proven by a habilitation or independent, equivalent scientific achievements or patents).
- Involvement in international research projects
- Experience in university teaching
- Excellent didactic and teaching skills
- Leadership and Management Qualifications
- Experience in cooperation with universities, research institutions and companies
- Gender and diversity competence

In order to be able to represent the subject internationally, a good command of written and spoken English is required. If German language skills are not available, the willingness to learn German within the first three years of employment (at least level C1) is required.

The transfer of residence to the greater Graz area is required.

Graz University of Technology aims to increase the proportion of women, in particular in management and academic staff, and therefore qualified female applicants are explicitly encouraged to apply. Preference will be given to women if applicants are equally qualified.
Graz University of Technology actively promotes diversity and equal opportunities. Applicants are not to be discriminated against in personnel selection procedures on the grounds of gender, ethnicity, religion or ideology, age, sexual orientation (anti-discrimination). People with disabilities and who have the relevant qualifications are explicitly invited to apply.

Interested candidates are requested to submit their application (certificates and diplomas, curriculum vitae, list of publications, description of academic and professional career, copies of the five most important publications, overview of previous research and teaching activities, concept for future development in research and teaching) using the application form available at https://www.tugraz.at/go/professorships-vacancies by no later than 28.07.2021 in electronic form (date of e-mail receipt) to the Dean of the Faculty of Mathematics, Physics and Geodesy, Univ.-Prof. Dr. Roland Würschum, Graz University of Technology, Petersgasse 16, A-8010 Graz, e-mail: bewerbungen.mpug@tugraz.at.

The Dean: Roland Würschum
