Graz University of Technology / Faculty of Architecture seeks to appoint a University Professor for Spatial Composition and Design at the Institute of Spatial Design, with effect most probably from 1 February 2019. The position is one of unlimited employment pursuant to Sec. 98 University Act.

Applicants are expected to bring both a practical and artistic oeuvre portfolio of the highest standard and outstanding academic and scientific qualifications. Their high profile will ensure representation and development for the field of spatial composition and design in teaching and research at a high international level. The applicants have extensive experience in the work at the interface of architecture and design that they will use in a state-of-the-art manner in the design of spatial solutions and their impact on users against the background of shaping, structuring, materialisation, perception and quality in research and teaching.

The chair includes the teaching of space-specific fundamental knowledge in the form of lectures, tutorials and seminars in the compulsory and elective subjects of the Bachelor and Master programs. The tasks extend in particular to architectural design. Future issues of complex architectural spatial composition are to be addressed as such and should be part of teaching and research. This includes the supervision of diploma papers and doctoral theses on relevant subjects.

The candidates are expected to be prepared to cooperate in academic administration and engage in cooperation across institutes and faculties; they are also expected to participate in international programs of the faculty. The scope of the teaching assignment of the professorship is subject to the applicable regulations.

A sound written and spoken Command of English is expected with a view to achieving international representation of the subject. Candidates who do not know German will be expected to be ready to learn the language.

Relocation to the greater Graz area is also a condition of the appointment.

Your profile:

• Graduate of an Austrian or equivalent foreign higher education institution in a relevant subject
• Excellent artistic and scientific qualifications for the subject of spatial composition and design
• Outstanding teaching skills
• Leadership skills
• Relevant acknowledged extramural practice

Graz University of Technology aims to increase the proportion of women, in particular in management and academic staff, and therefore particularly encourages qualified women to apply. Until there is a balanced number of men and women at the university, preference will be given to women whenever the applicants are equally qualified.

Graz University of Technology pro-actively strives to ensure diversity and equal opportunities. Applicants must not be disadvantaged on grounds of their gender, ethnic affiliation, religion or ideology, age or sexual orientation (anti-discrimination). People with disabilities and the respective qualification are expressly invited to submit their applications.
Applications including the applicant’s CV with description of his/her scientific and professional career, teaching and lecturing experience, publications and other substantiating documents are to be submitted in electronic form only to the Dean of the Faculty of Architecture, Univ.-Prof. Dr.-Ing. Stefan Peters, dekarch@tugraz and must reach the Dean’s office by

08 June 2018

at the latest (date of e-mail). The documents listed at www.architektur.tugraz.at (>News>Job Vacancies) plus the official application form are to be submitted. For more information please see http://www.architektur.tugraz.at

The Dean: Univ.-Prof. Dr.-Ing. Stefan Peters
